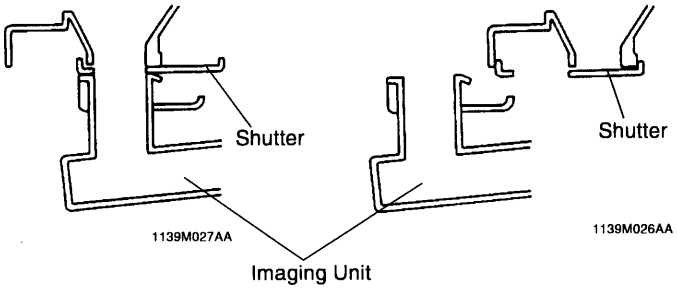
10-8. Toner Supply Hole Covering/Uncovering Mechanism

The Toner Supply Hole is covered to prevent toner from dropping into the inside of the copier when the Imaging Unit is slid out of the copier.

Imaging Unit in Position in Copier **Imaging Unit Out of Copier**



10-9. Toner Bottle Home Position Detection Mechanism

The Toner Bottle is detected at its home position by a home position detection sensor. When the Toner Bottle is at the home position (stationary), its toner supply port should face up.
