

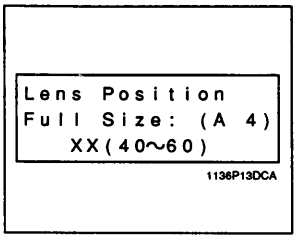
6. Press the OK Key repeatedly until the Display Panel shows the message "Lens Position Full Size: (A 4)".
7. Note the value shown below the message and then press the Clear key to clear the setting.
8. Using the Multi-Copy keys, increase or decrease the setting with respect to the noted value for the correct dimension of A on the copy:



Adjustment procedure

When the copy of dimension A is 18.5 mm or less: decrease the setting.
When the copy of dimension A is 21.5 mm or more: increase the setting.

9. Press the Panel Reset key to return to the initial copy mode.

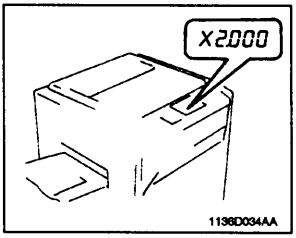
nlargement

Requirement

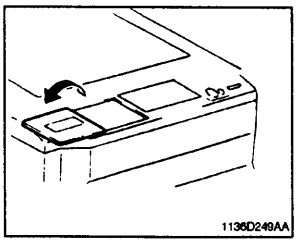
A copy of the vertical lines (width A is 20 mm) of the GTC-001 chart should have a width of 40 ±3.0 mm.
Setting range: 40-60
Unit of image leading edge movement: 0.8 mm

Important

This adjustment should be made after completion of the adjustment for the leading edge in full size.



1. Make two single copies on A3 or 11" × 17" paper in enlargement mode (×2.000) and check the second copy for leading edge registration. When the registration is within the tolerance, go to "Reduction" of this adjustment. Otherwise, go to step 2.



2. Open the System Panel.
