(2) Cleaning of the PC Drum Charge Corona Grid Mesh

Blow all foreign matter off the Grids with a blower brush.

NOTE

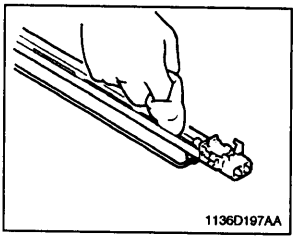

If the blower brush is not effective in cleaning the Grids, use a soft cloth dampened with alcohol to clean serious contamination.

NOTE

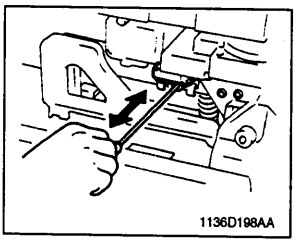

Place the Grid Mesh on a flat surface and sweep the cloth along the mesh.
Do not touch the cleaned Grid Mesh with bare hands.

(3) Cleaning of the PC Drum Charge Corona Housing

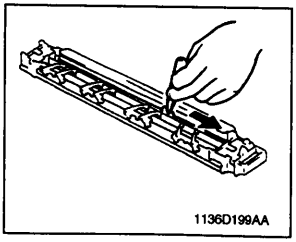

1. Remove the Grid Mesh.
2. Remove the two Holder Covers.
3. Remove the Charge Corona Wire, first at the spring end.
4. Using a soft cloth dampened with alcohol, clean the Charge Corona Housing.

(4) Cleaning/Replacement of the Image Transfer Corona Wire

1. Open the Front Door.
2. Clean the Image Transfer Corona Wire using the Corona Wire Cleaning Lever.

NOTE

If the Image Transfer Corona Wire is seriously contaminated, dampen a soft cloth with alcohol, hold it with a pair of tweezers, and wipe the Wire gently in one direction - from the hook end to the spring end.
