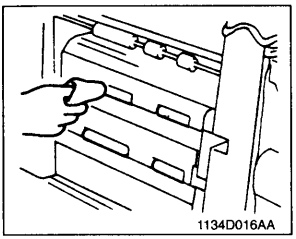
(4) Cleaning of the Vertical Transport Rollers

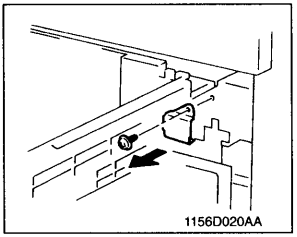


1. Remove the Right Door, Right Cover, and Rear Cover.
2. Using a soft cloth dampened with alcohol, wipe each roller clean of dirt.

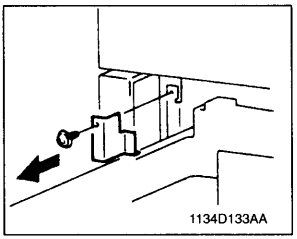
(5) Removal of the Drawers

*Though the following steps and illustrations are for the 1st Drawer, the same procedure applies also to the 2nd Drawer.

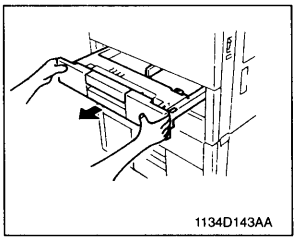
<Except 120V Areas>



1. Slide out the drawer and remove one screw and the right stopper.



2. Remove one screw and the left stopper.



3. Remove the drawer from the copier.
