8-2. System Panel

1	Manual Staple Key	* Staples copy sets or stacks already made. * Permits the stapling of copies as they are manually placed in the Top or 1st Bin when there are no copies in any of the Bins.
2	Mixed Original Detection Mode Key	Sets or cancels the Mixed Original Detection mode.
3	Original Count Mode Key	Selects the appropriate original count mode to determine whether the odd-page correction is necessary.
4	Original>Copy Type Select Key II	Selects the type of 2-in-1 copying job to be performed.
5	Original>Copy Type Select Key I	Selects the type of copying job making 1- or 2-sided copies from 1- or 2-sided originals.
6	Hole Punch Mode Key	Sets the copier into the Hole Punch mode. (Possible only on A3, 11" × 17" lengthwise or A4, 8-1/2" × 11" crosswise paper. The mode is not acceptable when the copier is in the Mixed Original Detection mode.)
7	Finishing Mode Select Key	Selects the type of exit processing.
