7. Touch [Menu] on the screen to show the Tech. Rep. mode menu again.
8. Touch [Level History] and enter the value for the "ATDC Ref. Level" on the Adjust Label affixed inside the Front Door.
9. Then, press the Panel Reset Key to return the copier to the Basic screen.

Enter This Value on the Adjust Label.

◆ Should the F8 operation be run when the starter has not been replaced, check that the "ATDC Ref. Level" value on the "Level History" screen matches that written on the Adjust Label. If they do not agree with each other, change the "ATDC Ref. Level" value on the screen so that it matches the value on the Adjust Label.
