18-6. Paper Take-Up Mechanism

(1) Paper Take-Up Mechanism

- The paper take-up and feeding mechanism takes up paper from the drawer and feeds it to the Vertical Transport Roller.
- The take-up mechanism is driven by 1st/2nd Drawer Paper Take-Up Motor M11/12.
- Each paper take-up mechanism consists of a Paper Take-Up Roll, Feed Roll and Separator Roll with torque limiter.
- The Separator Roll is controlled by the torque limiter so that it will not transport more than one sheet of paper at a time.
